FORGED CHECK IS LEFT IN HANDS OF MAN WHO REFUSED

George Willow Turns Over Paper Calling For \$25 on First National.

Young Man Tried to Get it Cashed and Fled.

BICYCLE THIEF IS ARRESTED

Some unknown young man tried to pass a forged check for \$25 on George Willow, the saloonkeeper at Malden Alley and Kentucky avenue, last night, but it was turned down. When the bartender refused to hand over the money, the stranger left quickly, the check bore the signature of Captain John Summers, and was written on a check of the First National bank. Police Sergeant Goureaux was notified and he had the patrolmen search for the man, but he had skipped out. The forged signature was plainly written, but nothing like the signature of Captain Summers.

Will Stay in Town.

In order to give Will Johnson, colored, a chance to become acquainted with Paducah life, Judge Cross held him over to the grand jury this morning on a charge of grand larceny. Johnson took a \$25 Crescent wheel from Glenn Walters, a messenger for the Postal Telegraph company, last night between 8 and 9 o'clock. Johnson was riding on the pavements, and at Fourth and Washington streets, Detective Will Baker saw the negro riding the bike at full speed and told him to get off the sidewalk.

Johnson hopped off the wheel, and his actions were suspicious. Detective Baker took hold of the wheel and started to catch him when Johnson began to run. Baker fired one shot at the thief, who stopped. Johnson pleaded guilty to Judge Cross this morning and wanted to get off easy as he had been in the city but three days. Until next September, when the grand jury meets, Johnson will have the opportunity to see how he likes Paducah.

Will Quit Begging.

Being offered his choice of going to the county sanitarium, leaving the city or ceasing begging, Charles Cole, a beggar who can see but little, chose to live with his brother and keep off the public streets. Cole is a familiar figure on the streets, and Jan Toner, secretary of the Charity club, has had several conferences with Judge Cross about Cole. Cole promised to quit begging on the streets, but he says he forgot and yesterday was on Broadway. He has one brother who feeds him, but Cole is expected to clothe himself. The city officials wanted to send him to the county sanitarium, but Cole refused to go and promised to go home to his brother and stay off the streets.

La Follette Talks Eighteen Hours Against Currency Measure; He is Relieved by Senator Stone Today

Hope Expressed That Filibuster Will Succeed in Putting Off Vote Until Congress is Ready to Adjourn.

Washington, May 30.—The filibuster engineered by La Follette against the Aldrich-Vreeland currency bill is still on. The senate has been in continuous session since yesterday. La Follette stopped talking at 7 o'clock this morning, after an 18 hours' speech. Stone, of Missouri, took up the argument against the bill. Gore will relieve him. Jeff Davis, of Arkansas, wired he is on the way to assist the filibusters. Opponents of the bill now claim their ability to kill it, by talking until congress will be glad to adjourn.

Senators supporting the currency bill announced this afternoon that they will try to prevent La Follette speaking again. Rules provide that no speaker may speak more than twice on any subject the same legislative day. They claim La Follette stopped to allow bills to be introduced and so has spoken twice. While Stone was talking Aldrich interrupted and asked if it was true that Stone returned to Washington at the instigation of a "certain presidential aspirant." It has been reported that Bryan induced Stone to join the filibuster. Stone denied he has been commissioned by the Nebraska.

TERRIBLE FALL MAY TERMINATE FATALLY, IS FEARED

Sharp, Ky., May 30. (Special.)—While going down steps into a cellar to get milk for supper, Mrs. Mary Green fell yesterday afternoon seriously fracturing her skull, cutting an artery in her temple and bruising herself badly. Mrs. Green is 70 years old, and owing to her advanced age, grave doubts are entertained as to her recovery. She was knocked unconscious by the fall, but was found and the flow of blood was stopped temporarily until medical aid was summoned. Dr. O. A. Edleman attended her.

Canon City, Col., May 30.—Death beat the pardon Governor Burchell granted B. Irving. Mrs. Irving, his mother, arrived this morning and was informed, "Your son died four minutes ago."

Lamplack Swamp Murder.

Jersey City, May 30.—After being out 21 hours the jury trying Theodore Whitmore, accused of murdering his wife, Lena, known as "Lampblack swamp victim," disagreed and was discharged. The woman's body was found Christmas nude in the swamp. It was one of the biggest murder mysteries the authorities ever faced.

OIL TANKS DANGEROUS

Fire Chief James Wood has completed his investigation of the safety of the Standard Oil company's store-rooms at Tenth and Monroe streets, and says the place is unsafe. Until all reports are in, it is not known what action will be taken by the city. One of the constant dangers is the passing of switch engines, and a spark might fall into oil and a conflagration might result in the heart of the city.

Miss E. M. Knisley, superintendent of Riverside hospital, will leave tonight for Philadelphia to spend her vacation with relatives. During her absence Miss Lula Hargis, head nurse, will be superintendent and head nurse. Miss Knisley will be gone about a week.

HIGH BROWS FALL OUT.

New York, May 30.—President Roosevelt threatens to disorganize the Christian Socialists, an organization of ministers, artists and "high brows." Most of the members oppose Roosevelt's policies. When they started criticizing him the Rev. Steppen, of Wisconsin, objected and defended Roosevelt. Others came to his support and the existence of the organization is threatened.

WICKLIFFE BOYS UNDER CHARGE OF HORSE STEALING

St. Louis, May 30.—John and Jesse Greer, 19 and 17 years old, of Wickliffe, Ky., were arrested as a result of stealing a pair of horses and a buggy from the stable of Dr. John Douglas, of Ferguson. The youths offered for sale at the stable of Louis Decker one of the two horses they were driving. Decker gave a check for \$90 in payment for one of the horses and then told the police. The Greer brothers were arrested while on their way down town to cash the check. The brothers told the police they had been working in the wheat fields of Great Bend, Kas., and wanted to go back home. They had stolen their way as far as Benton after being on the road two weeks and then decided to steal so that they could travel "like gentlemen."

BEACH HARGIS TRIES TO TAKE OWN LIFE

Jackson, Ky., May 30. (Special.)—Beach Hargis and Allen Creech, the latter for trial for killing Charles Robinson, tried to commit suicide in jail. Hargis took morphine and Creech used whisky and strychnine and tried to cut his throat. Both were saved, though they were seriously ill.

Mrs. James G. Banks, of Murray, is visiting her sister, Mrs. Perry McLean, who has been seriously ill but is improving.

The Rev. J. W. Bruner, of Clinton, will preach at the Second Baptist church tomorrow Morning and evening.

COUNTY EDUCATORS TO MEET IN PADUCAH SOON.

Prof. G. H. Wells, of Cadiz, president of the First District Educational association, has issued a call for all the county superintendents in the city to meet in Paducah Tuesday for the purpose of arranging for the annual meeting of the association at Benton in November. The program for the meeting probably will be arranged when the superintendents are in session.

LIFE SENTENCE FOR MURDERER OF STATION KEEPER

Philadelphia, W. Va., May 30.—James A. Baker, found guilty of burning the railway station at Welcome and murdering the agent and tampering with the United States mails, was sentenced to the penitentiary for life. He refused an attorney and defended himself.

44 DOGS KILLED

Without benefit of clergy, 44 stray dogs were buried on the city farm yesterday afternoon, and the work of riding the city of the dogs will continue. The dogs were drowned by the catchers, who caught another wagon load this morning. City Clerk Maurice McIntyre has issued 202 dog licenses this week, which is quite a record and brought several hundred dollars into the city treasury.

DECORATION DAY PROVES BUSY ONE AT COURT HOUSE

Many Orders Handed Down By Circuit Judge Reed in Pending Cases.

City Tax Case Heard and Taken Under Advisement.

JURIES DRAWN FOR NEXT TERM

Decoration Day was not observed at the county court house today on account of the day being Saturday and the usual rush of business to be transacted. Judge Reed held a lengthy session of circuit court.

Evidence was heard in the suit of Frank Lucas, as revenue agent for the state, against the city of Paducah to collect several years' back taxes on the market house, wharf and cemetery property. The city solicitor not only contests the right of the state to collect taxes on public property, but disputes the value placed by the revenue collector, believing it too high. After hearing the evidence Judge Reed announced he would take the case under advisement.

Motions made for new trials by the defendants in the actions of Meyer Lovitch against the Palmer Transfer company and T. B. Orr against the Pullman company were both overruled. The amounts involved are too small for appeal.

A motion to take the plaintiff's petition for confessed in the action of Obe Bradshaw against the Paducah Light and Power company.

The court drew the lists of juries to serve on the grand and petit juries at the September term of criminal court.

The motion of the defendant for a new trial in the case of S. Feis & Rubel against the Merchants and Mechanics Transportation company was overruled.

The suit of Hattie Sherrill against B. J. Sherrill was continued.

The sheriff was ordered to pay to the trustee of the jury fund the amount needed to pay the jurymen empaneled at this term of court.

The rule against C. F. Johnson to turn over certain property belonging to the Kentucky Printing company to the receiver, was discharged, the order having been complied with.

Eva B. Winfrey was given judgment against L. F. Hugg, administrator of A. B. Winfrey for \$168.25.

The bill of exceptions and evidence in the case of Learney Schrader against the Nashville, Chattanooga & St. Louis railroad was tendered and accepted. The case now goes to the court of appeals.

The attorneys and special judges, who have presided at the present term of court, will meet at the court house Monday afternoon for the purpose of having the final orders made, hearing motions for new trials, etc.

County Court.

County Judge Lightfoot has under advisement the suits of H. L. Anderson, auditor's agent, for back taxes against the Sutherland Medicine company and the Lax-Fos company. He probably will not render a decision for several days.

TWO DELEGATES

But two delegates from the Purchase will attend the International Sunday school convention at Louisville next month. They are the Rev. William Bourquin, pastor of the German Evangelical church, an indefatigable Sunday school worker, and Mrs. Hill, of Fulton. Kentucky has 52 delegates. Great Sunday school workers and leaders of religious thought from the whole civilized globe will be in attendance. A low railroad rate will be offered and many visitors from this city will attend the sessions.

WILL NOMINATE THEM

Washington, May 30.—While no formal announcement yet has been made, it may be stated definitely that Representative Theodore Burton, of Ohio, will present the name of Secretary Taft to the Chicago convention.

Will Nominate Bryan.

Washington, May 30.—It was stated today on reliable authority that I. J. Dunn, assistant city attorney of Omaha, Neb., will place William J. Bryan in nomination for the presidency at the Denver convention. Among those who will second the nomination will be Representative J. Thomas Heflin, of Alabama.

Captain Jake Elliott, assistant fire chief, is quite ill today of a bilious attack at his room at the No. 4 fire station.

Eastern Syndicate is Seeking to Purchase Plant of Mergenthaler-Horton Basket Manufacturing Co.

M. J. Parkhurst and F. C. Dayton, of New Haven, Conn., Fighting Effort to Postpone Sale Monday.

Eastern capitalists are after the big Mergenthaler-Horton Basket Manufacturing company. As a consequence, bidding at the sale of the plant Monday, if the sale is held, will be lively. They want the plant so badly that they employed counsel to go to Louisville to oppose a motion made in Judge Evans' court, to postpone the sale. This motion to postpone was made by Bagby and Martin, representing the Globe Bank and Trust company, but the order was not modified at all.

When J. A. Bauer stepped in and bought the great plant at the last sale for \$25,000, Paducah parties interested, as well as out-of-town capitalists sat up and took notice. His daring made them take energetic steps to have the sale annulled. It was annulled by Judge Evans on the grounds that if another sale should be held the plant would bring much more money. It will, because instead of one bidder of any magnitude, there will be several at the sale Monday.

M. J. Parkhurst, of New Haven, Conn., son of the president of the company, and the man who was largely instrumental in promoting the concern, is in the city to look after his father's interests, and to bid at the sale. With Mr. Parkhurst is Mr. F. C. Dayton, also of New Haven. It is said that they represent an eastern syndicate of capitalists who want the plant and are willing to pay much more than \$25,000 to get it. S. H. Fish, of Sodas, N. Y., is also in the city to attend the sale, and this morning with W. F. Hummel, receiver, went over the plant in Mechanicsburg.

He was impressed, as everybody who has ever seen the plant, has been impressed, with the fact that J. A. Bauer merely walked off with a big prize.

The Physical Plant.

In the first place, there is \$10,000 or more worth of lumber in the tremendous buildings of the company.

Clarksville, Tenn., May 30. (Special.)—Three plant beds on the farm of Irvin Beard at Wall's creek were destroyed. Beard was warned to join the pool.

Mrs. Z. C. Graham and Miss Stella Graham, of Grahamville, are visiting friends in Dyersburg, Tenn.

Anti-Jap Outbreak Imminent.

Vancouver, May 30.—Another anti-Jap race disturbance was threatened when 80 Japanese were attacked by a train crew as the work car in which the Japs were riding was derailed. It nearly killed Conductor Thomas Hughes. Railroad men are threatening to mob the Japanese and the police are almost powerless to prevent trouble.

CONTEST JUDGES NAMED TO DECIDE PRETTIEST YARD

The committees selected by the Woman's club to make the awards in the contest to decide who has the prettiest yards in the city will make their trips through the different districts today and the awards will be made tonight. Mrs. James Rudy, president of the club, and Miss Adine Morton will decide who wins the prize for the prettiest yard in the entire city, and Mrs. M. B. Nash will be the judge for the district embraced in the territory from Broadway to Norton street, Mrs. J. C. Flournoy is the judge in the district from Broadway to Trimble street, and Mrs. George Langstaff in the district from Fountain avenue to Twenty-fifth street. The prize for the prettiest yard in the entire city is \$100 donated by The Evening Sun, and the district prizes are \$5 each, donated by Mr. Richard Raby, Mayor Smith and the Woman's club. The News-Democrat gives \$10 for the prettiest unimproved lot.

MOTHER AVENGES CRIMES AGAINST HER 2 DAUGHTERS

New York, May 30.—Mrs. Theresa Phillip shot and instantly killed John Marrio, when she caught him trying to molest her 6-year-old daughter in a vacant lot in east New York. The woman had just returned from court, where her daughter, Maria, 14 years old, accused Marrio of molesting her. The second attempt on her children crazed the woman and she killed the offender.

OWNER OF WATCH

The Rev. J. W. Cook, colored, of Memphis, was the loser of the roll of \$35 and the watch that Charles Lowe the Mayfield negro, is accused of taking on the Illinois Central train Wednesday morning. Cook was in the colored apartment when the money and watch were pulled out of his pocket. Lowe's trial will be held Monday morning. He is recovering from his injuries, sustained by jumping from the moving train.

on Meyers street. The land on the river front and with railroad facilities, is valuable, the engines, boilers and other incidentals, to say nothing of the hundreds of costly Mergenthaler machines, combine to make the plant worth double what it was first sold for. Then, it is almost certain to be gotten, sooner or later by eastern capitalists, who, starting fresh doubtless could make money with the industry, and who would have paid any owner a large bonus for the concern.

Mr. Charles K. Wheeler is in Louisville today to oppose the motion for a postponement. The bank thought its claim against the bankrupt company would be better disposed of by selling the land and the property separately, and want the sale postponed. It is said the sale will go ahead Monday. S. H. Fish is at present a basket and box manufacturer and operates some of the Mergenthaler machines. He will be at the bidding Monday with perhaps some other out-of-town bidders.

The eastern capitalists are not communicative about their plans, but as the plant is ideally located and equipped, and as they have come a long way to attend the sale, it is stated on good authority that the industry will soon be in operation again. That is, as soon as the financial end of the proposition can be attended to in the east. Meanwhile, they will cinch the game by buying in the plant, unless Paducah bidders go them one better.

Attorney J. D. Moequon is in Louisville today to represent Mr. F. E. Lack and Receiver W. F. Hummel at the hearing of the motion to postpone the sale. It is said he will urge the sale Monday. Mr. Lack guaranteed to start the bidding at \$30,000 Monday. This will be the third sale, no bids being received on the first and the second was set aside.

THREE NEW PLANTS ARE PROSPERING FROM BEGINNING

Paducah Box and Basket Factory Producing Millions For Fruit and Berry Crops.

Columbia Manufacturing Company is Making Good.

WISDOM HOSIERY MILLS GROW

Prosperity in abundant measure is assured for Paducah in the immediate future by the success of many of its manufacturing industries, in spite of the panic and subsequent depression. The fact that they went right ahead through the financial troubles, is proof that they will have far greater success when normal conditions are generally restored, while, on the other hand, their operation in the midst of the depression has been the largest factor in averting worse conditions in Paducah's labor market.

The Paducah Box and Basket factory is one of the industries, whose continuous operation has been favorably felt all winter. More persons probably are employed here than in any other industry in the city, and the weekly pay roll has been a considerable item to Paducah merchants. So far this season this industry has manufactured approximately 12,000,000 fruit and berry boxes and baskets and to keep up with their orders night work has been necessary. Though the boxes are needed only at certain periods in the year this plant has operated the year round, and it had its birth and has grown up right in Paducah without any stock-jobbing schemes to put it on a running basis.

Messrs. Wells and Morris, managers of the plant, say that Georgia will have the biggest peach crop this year in her history, and to handle it 5,000,000 boxes have been made at this factory. From three to five car loads are shipped, principally to the east and north, while in baskets and other products of the factory, correspondingly large orders have been filled. A new boiler has just been installed that makes the capacity of the boiler room 300-horse power.

Gradually the plant is spreading over a large tract of land at Fourteenth and Caldwell streets, where both railroads give it excellent shipping facilities. Each month sees an addition to its capacity and a greater number of hands employed. More families are now supported through this industry than by any other single manufacturing concern.

Columbia Plant.

Another industry that is coming to the front with a rush is the Columbia Manufacturing company, makers of curtain poles, mouldings and novelties in wood. Several hundred hands are employed and the business increases each month justifies the prediction that it will soon be pressing hard for the first place in size. Orders are shipped from this plant to Europe and Asia and a feature of the business is the ingenious use of every particle of wood. Novelties are turned out here that are being sold by the principal stores in the country, a leading line being the shirtwaist and skirt boxes for women. This industry, too, though young, has kept going through the panic and depression.

Wisdom Hosiery Mills.

Managers of the Wisdom Hosiery mills assert that Paducah will one day count it as one of the leading industries in the city. They have the space to grow and say they will in a short time cover a much larger acreage than at present. Capital and energy are behind it to assure success.

These three plants are mentioned because, being young, compared with other industries here, their success is more significant for an early return to prosperity. Older concerns here are prospering and what depression exists in the city is largely brought about by conditions in other parts of the country, as the slack demand from the railroads for ties, which has laid up a number of towboats. Paducah can look forward more hope fully to the future than any city of its size in the United States.

A Shoe Factory.

The proposition of Mr. William Osner to locate a shoe factory here that would work only negro hands, will be given careful consideration but as it is strictly an experiment, and as Mr. Osner has asked a large stock subscription from the city, he proposes to invest in the experiment, no definite answer could be made him now. He is going to the Pacific coast in a short time and the location for the new factory will not be settled until his return in July or August.

Girls wouldn't get much fun out of flirting if it was strictly proper.

OBSTINATE ULCERS MAY LEAD TO CANCER

There is no difference, at first, in the appearance of a cancerous and a common ulcer, and for this reason every sore that is obstinate or slow in healing should excite suspicion, for the sore is nothing more than the external evidence of a polluted blood, and if allowed to remain may degenerate into Cancer. Efforts to heal the ulcer by means of salves, plasters and other external remedies always result in failure, because such treatment can have no possible effect on the blood, where the deadly germs and morbid matter form, and are carried through the circulation to the place. No sore or ulcer can exist without a predisposing internal cause, and the open, discharging ulcer or festering old sore will continue to eat deeper into the surrounding flesh as long as a polluted, germ-infected circulation discharges its impurities into it. S. S. S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcer open. Then as this rich, purified blood goes to the diseased place the healing begins, all discharge ceases, the inflammation gradually leaves, new tissue and healthy flesh are formed, and soon the sore is permanently cured. S. S. S. is made entirely of roots and herbs of a healing, cleansing nature, and unlike mineral medicines, which often do great damage to the delicate parts of the system, S. S. S. tones up every part of the body. Book on Sores and Ulcers and any medical advice desired free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Gold and Dross.
If she laugh with you, jest with you, then
You are one of a hundred men
Gladdened and cheered a while
With the trifling coin of a smile—
The cheap little coin and small
She may toss to any and all.
If she sigh with you, weep with you, then
She has chosen the man from men
To lay at his hand the whole
Vast wealth of an untouchable soul,
To prove you how small the spent,
Poor gifts of her merriment.

—John Winwood in Smart Set.
On the threshold of the great event in Paducah's club life, the meeting next week of the State Federation of Women's clubs, the prospect is unbroken for a magnificent success.

The elaborate plans for the meeting were begun last year immediately after the selection of Paducah as the next meeting place, and they have been kept constantly in mind ever since, growing at this time, into the matured program which the public knows. Every annual meeting of the state federation has been better than the one that preceded it, and Paducah's turn promises not only to keep up this record, but actually to establish a record for stupendous efforts to be surpassed.

If the delegates and different departments of the federation can put into their work here, the same degree of enthusiastic work that Paducah club women have given, the Woman's club building will be a veritable charged battery of energy and brilliancy.

Beautiful toilettes doubtless will distinguish this, as they have preceding meetings, and Paducah club women have kept needles busy in the last two months, but thoughts of dress have been necessarily secondary from the vast amount of prosaic committee work incidental to entertaining the federation. Thoroughness marks all the work of these committees and if there is any hitch anywhere in the whole meeting, it will be one of those exigencies under the direction of fate which neither mere man nor his better half could foresee.

The club building is in the very pink of condition—spotless, newly papered, fresh with cut flowers, lacking nothing but the women themselves to make it burst from the chrysalis into the varicolored butterfly of the full-fledged meeting. The city, itself is unprecedently clean and inviting looking, and the pride of the purchase will no doubt make a lasting impression on the delegates, to be carried all over the state.

Further Federation Features.
Spare moments will be few and far between for the delegates to the state federation, as all the evenings of the meeting and some of the hours between sessions and functions will be

taken up with pleasure features. On Wednesday evening the Matinee Musical club will entertain the visitors, the members of the six federated clubs and their visitors, with a musical and reception.

The handsome steamer Dick Fowler will be the scene of Thursday evening's social feature, when the visitors and six federated clubs will enjoy a moon light river trip. Mrs. Mildred Davis and Mrs. Edmund Post are the hostesses of this entertainment.

Many automobiles will gather Thursday afternoon to take the visitors over the city and through the suburbs. The Automobile club is the host on this trip and few more enjoyable diversions could be devised.

Culminating the automobile ride, will be the reception to be given by Mayor and Mrs. James P. Smith at their suburban home "Whitehaven." A notable entertainment is expected by the clubs.

First Summer German.
The German club formally opened the summer dancing season at Wallace park pavilion last Monday evening. The weather was ideal for dancing and the evening was delightfully spent, first in program dances and later the German, led by Mr. Charles Rieke, was danced. The dances during this summer will be begun earlier and close earlier. Among those present were: Mrs. Jettie Holston, Misses Ethel Brooks, Jane Stevenson, Jane Morris, Rosebud Holston, Blanche Hills, Helen Hills, Garnette Buckner, May Owen, Faith Langstaff, Katherine Quigley, Nella Hatfield, Eloise Bradshaw, Alma Kopf, Mary Scott, Lillie May Winstead, Corinne Winstead, Henry Alcott, Helen Powell, Marjorie Lovell, Katherine Powell, Hazel McCandless, Hallie Hisey, Elsie Hodge and Messrs. Wallace Weil, Jay Harlan, James Langstaff, Sam Hughes, Pat McElrath, George DuBois, Robert Guthrie, Fred Wade, Arthur Martin, Virge Thomas, Will Rinkliffe, Guy Martin, Warren Sights, Will Rudy, Charlie Alcott, Stewart Sinnott, Austin Miller of Zanesville, Fla.; Harry Van Meter, of Urbana, Ill.

Engagement Announced.
Announcement is made today of the engagement and approaching marriage of Miss Edna Eades and Mr. Marshall Holmes Puryear on the evening of June 10, at Hopkinsville. The wedding will take place at "Oak Hall" the country home of Miss Carrie Baker, who is Miss Eades' guest at present. The Rev. Mildard A. Jenkins, pastor of the Baptist church, will perform the ceremony. After the service the bride and groom will go to Nashville and Springfield, Tenn., where Mr. Puryear attended college. There will be no attendants, and no invitations will be issued.

Miss Eades is the daughter of Mr. and Mrs. William Eades, 930 Jefferson street, and is one of the most popular young women of the city. Her charming personality has endeared her to a large circle of friends. Mr. Puryear is the son of Mrs. T. N. Puryear, Tenth and Jefferson streets, and he is a cashier for the Nashville, Chattanooga and St. Louis railroad. He is a young man with good business acumen, and has many friends in the city. On their return to the city the couple will make their home at 930 Jefferson street. Miss Eades and her guest, Miss Baker will leave Tuesday for Hopkinsville.

Winslow-Vance Wedding.
Miss Marie Winslow was married Thursday morning at her home on East Broadway to J. R. Vance, of Paducah. Rev. E. B. Kuntz of the Presbyterian church performed the ceremony. The couple left immediately for Chicago. St. Paul and other places on a bridal trip. They will be at home in Paducah after ten days.

The wedding was a quiet home affair and attended by only relatives and special friends of the couple.

The bride is an elegant and lovely young lady and is the daughter of D. L. Winslow, the merchant. Mr. Vance is a young man well known in Paducah and holds a responsible position with the I. C. railroad company.—Mayfield Messenger.

Two Notable Social Features.
Inaugurating the state federation meeting, a notable reception will be given on Tuesday evening, June 2, by the Woman's club at the club building, Sixth street and Kentucky avenue. The guests will include the federation visitors, members of the six federated clubs, the Delphic Magazine, Kalsophsie, Matinee Musical and Woman's club, and the husbands of the members. The privilege of transferring the invitations is not given.

On Wednesday at noon, an elaborate buffet luncheon will be served at the club building by the Delphic Magazine and Kalsophsie clubs, for the delegates to the federation. This will be attended also by the members of the six federated clubs.

Classmates Entertained.
The members of the senior class of the High school were entertained pleasantly Wednesday evening by Miss Sadie Smith, valedictorian of the class. The decorations at the refreshment tables were in the class colors, green and gold. Those present were: Misses Bessie Lane, Eunice Robertson, Elizabeth Bodwell, Margaret Schwab, Ethel Sights and Helen Hills. Messrs. Clyde Warren, Gus Elliott, Edward Randall, Charles Cobb, Robert Fisher, James McGinnis and William Rock.

At Cards.
In honor of Miss Madeline McNald of St. Louis, Mrs. Samuel I. Tick entertained at cards Thursday evening at her home, Fifth and Madison streets. Miss Viola Ullman won the first prize for the girls and Mr. Morris Friedman the gentleman's prize. Miss McNald received the consolation prize.

High School Entertains.
Commencement next week will be

featured by a number of receptions at the High school. Sunday morning the baccalaureate sermon will be preached at Grace Episcopal church, by Dr. D. C. Wright. Monday evening, Freshmen reception to seniors; Tuesday evening, Sophomore and Junior reception; Wednesday evening, class play; Thursday evening, commencement at the Kentucky; Friday evening, Alumni reception, at Woman's club building.

Wedding in Meridian.
Announcement of the marriage in Meridian, Miss., of Miss Lillian Losier, formerly of this city, to Mr. M. M. McCullough, of Atlanta, Ga., was received last night. The wedding took place Thursday evening at 8:30 o'clock in St. Paul's Episcopal church, the ceremony being performed by the Rev. W. M. Greene.

After the ceremony the couple left for Jackson, Tenn., to visit the bride's father, Mr. J. J. Losier, postmaster there, and formerly a business man of Paducah. They will also visit in Atlanta and live in Meridian. The bride is a grand-daughter of Mr. K. C. Rose, 329 South Third street, by whom she was reared and where she lived until a few years ago. She was supervisor of music in the public school of Meridian last year. Mr. McCullough is in the lumber business at Meridian.

Vocal Quartet.
Preliminary to the state federation meeting, the Matinee Musical club secured the Vocal club of Chicago for a recital on next Monday evening, at the Eagles' hall, Sixth street and Broadway. The quartet comes highly recommended and will present a program that will attract all music lovers.

Browder-Drake.
An unusually pretty home wedding was that of Miss Janie Browder to Mr. J. M. Drake on Wednesday morning, at the home of the bride's mother, 635 Broadway. The Rev. G. T. Sullivan performed the ceremony and the couple left immediately for a southern trip. On their return they will live at 635 Broadway.

Marriages.
Miss Lillian Simmons and Mr. Guy Holliday were married Sunday morning at 8 o'clock at the residence of the bride's parents on Lincoln avenue, by the Rev. J. R. Clark.

Miss Mary Bass of Broad street and Mr. Edgar Jones of Chanute, Kan., were married by County Judge Lightfoot last Monday evening, and they will leave this week for Kansas to live.

Miss Endora Farley, daughter of Captain Ed. Farley, state treasurer, will be married to Mr. James Clement Langdon of Rock Island, Ill., on June 9 at St. Francis De Sales church.

D. A. R. Fountain.
Lorado Taft, the sculptor of Chicago, heard in a lecture here last year, has designed a memorial fountain which was accepted by the Paducah chapter, Daughters of the American Revolution in the final meeting for the season yesterday afternoon with

the acceptance of the design for the fountain three years' work by the chapter has culminated successfully. The idea of a memorial fountain was first suggested when Mrs. H. S. Wells was regent, and two years ago when Mrs. Eli G. Boone became regent, the work was actively begun. The design calls for a figure 13 feet high of granite or marble, and will cost \$1,500. Mr. Taft graciously gave his services and the chapter will have Dr. Caldwell express their thanks for the generous gift.

Much other important business was transacted in yesterday's meeting. The year book committee was appointed, composed of Mrs. Luke Russell, chairman; and Mrs. Leslie Soule and Mrs. S. B. Pulliam. Mrs. H. S. Wells was elected delegate to the state conference in October at Lexington, and Mrs. E. G. Boone will attend as regent. Mrs. Emily Morrow is alternate for Mrs. Wells, and Mrs. C. K. Wheeler for Mrs. Boone. Mrs. Roy McKinney, as chairman of the educational committee will co-operate with the teachers of the Franklin school building to place flags inside and outside the building.

Literary and musical features made the last meeting most enjoyable. Mrs. David Flournoy and Mrs. L. W. Boswell read papers, and Mrs. Lela Wade Lewis, Mrs. David Flournoy and Miss Lucette Soule sang. Mrs. Lewis' song was composed by Mr. Walters. "A Little Pair of Baby Socks," the colors pink and white were employed in the decorations and refreshments. Mrs. Effie Randolph, of Charleston, Mo., and Mrs. Lona Keys, of Murray, guests of Mrs. Kitty Willis, were the out-of-town visitors.

Crescendo Club Recital.
Miss Virginia Newell announces that the closing recital by her music class and the Crescendo club, will be given on the evening of June 12, at the Woman's club building. It will be by far the most ambitious program attempted by the club in its history.

On the evening of June 11 two medals will be awarded in a music tournament, by Miss Newell, to the two members of her class who play most perfectly from memory, six pieces they have learned during the year. This contest will take place either at Miss Newell's studio, Sixth and Monroe streets, or at the Woman's club building. There are 35 members of the class.

Calro Pleasure Trip.
Miss Elizabeth Schree entertained a few of her girl friends Friday with a boat trip to Calro on the steamer Dick Fowler. In the party were: Misses Elizabeth Schree, Alma Kopf, Nella Hatfield, Corinne Winstead, Elsie Hodge, Jane Stevenson, Mrs. R. L. Schree and Mr. Richard Scott accompanied the party.

Mrs. Hal Walters, 1630 Jefferson street, Dr. Della Caldwell, who has been chairman of the fountain committee, will see Mr. Taft in Chicago next week, to close the contract for the work, which will be the heroic figure of an Indian. The design is peculiarly appropriate for Paducah with its Indian associations. The fountain will be placed in the custom house yard, Fifth street and Broadway.

With the acceptance of the design for the fountain three years' work by the chapter has culminated successfully. The idea of a memorial fountain was first suggested when Mrs. H. S. Wells was regent, and two years ago when Mrs. Eli G. Boone became regent, the work was actively begun. The design calls for a figure 13 feet high of granite or marble, and will cost \$1,500. No FAD - JUST FUN

The swinging pendulum of fashion has again brought the bicycle into vogue, although questions of style and popularity do not greatly concern the younger generation of cyclists. While more wheels for little folks have been sold lately than was the case in years, the market for juvenile bicycles has never flattened out; rather, to use a commercial term, it has always been quoted "strong and firm."

The fact is, a bicycle is an essential part of a youngster's belongings, and cannot be ignored in the process of properly "bringing him up." There is one very good reason for the sustained sale of juvenile bicycles, which is illustrated in the story of a captious mother in a toy shop.

"Don't you ever have any new kinds of toys?" she asked.

"No," was the polite reply, "there's no great novelty in the toy line, but the babies, they are always new."

New Wheels for New Riders.
And so the bicycle manufacturers, in providing for the never ceasing army of youthful bicycle recruits, have been busy every year, and this year seem busier than ever. Bicycles are in good form as Christmas gifts, they are delights when vacation time turns loose a myriad of young scholars, and in every season of the year a healthy, hearty boy or girl finds plenty of reasons for keeping a bicycle in commission.

And in all seriousness, the youngster who does not own a wheel, misses a lot out of life. Without this companion, the boy is barred from many forms of sport which wheel owners enjoy, and the girl, who should have every incentive to indulge in sane and healthful exercise, is greatly under a

handicap which the thoughtful parent will avoid if he can.

Good Doctrine for Growamps.
There is not much chance for argument on this subject, whether the parents can recall their own wheeling days or not. They certainly know that cycling increases the lung power, works wonders for those having poor circulation, and by the rational use of muscles that are not ordinarily brought into action, develops a sturdiness of body, and reserve fund of strength that is worth more to a growing child than any other possession.

When you come to think of it, everything that has been said concerning the value of cycling for juveniles, can be said just as strongly in talking of wheeling for adults. And it's because of the absolute truth of this statement no doubt, that the return of the wheel is so much in evidence.

The bicycle, and its vogue today, is really on a better foundation than ever before. It is not put forward as a fad, or a fashionable diversion, but is accepted as the finest means of exercise in the world, and the most nervous time and money saver that has ever blessed mankind.

A Doctor Asked Again.
A leading physician of one of the large western cities, who owns an electric phaeton and a gasoline runabout, surprised his friends this spring by appearing on a new bicycle.

"I'm just learning sense," he said to a friend who rallied him on his new mount. "I expect to use one of my automobiles when I have to, but I am not going to miss the fun and advantage of cycling any longer. My electric made me at the lazy—was getting ogy in mind and body. Ten years ago I was using a wheel every day, and I never slept better, ate better, or really felt better in my life. I know the bicycle was entitled to full credit, and I am going back to those days again. Better show a little sense yourself, and join me these fine spring mornings."

The best thing about this wise prescription is that it's easy and pleasant to take. Bicycles cost less and are actually better than they were a year ago, and the witchery of wheeling is as potent as it ever was.

Reception and Tea.
Mrs. Vernon Blythe will entertain with an informal tea this afternoon from 4 to 6 o'clock at her home, 305 North Seventh street, in honor of her visitors, Mrs. John Dillon, of Hickman, and Miss Anne Rhea, of Nashville, Tenn. It is especially for the younger society set.

Miss Campbell to Wed.
Judge and Mrs. James Campbell of Madison street,

announce the approaching marriage, June 15, of their daughter, Miss Jeanette Campbell, to Mr. Horace W. Shinn. It will be a quiet morning wedding at the bride's home, owing to a recent bereavement in the family.

Little Miss Ruth Taylor, of Madisonville, returned home this morning after a visit to Miss Robbie Loving.

Daily Thought.

The end of man is an action, and not a thought.—Carlyle.

WALTON'S HOLY WAR.

Referring to The Sun as a capricious critic because we remonstrated with Brother Walton for his abuse of soldiers and the vested authority of the state, the Kentucky State Journal defends its position by the very course of reasoning, which now justifies the use of the military power to suppress night riders.

"We have denounced and do now denounce the unwarranted, unwise and unjust use of the military power of the state without the request and often over the protest of the civil authorities. If the military has any place in our scheme of government it is only after the civil power of the county has been exhausted."

In the counties of the Black Patch where peaceable homes were riddled with bullets, threats terrified mothers and wives, and white citizens were whipped and their property destroyed night after night without a hand of protest being raised by county authorities, many of whom are known to be night riders, quiet has been restored under protection of the military authority. It is positively known, that aside from the county officials of Calloway county, and County Attorney Krone and Judge Crumbaugh, of Lyon county, the soldiers are handicapped by the acquiescence of county officials in the outrages, or their hearty co-operation with the lawless element. In those two counties, where the officials are aiding the military, they called for troops and declared the "civil power of the county has been exhausted."

It would be quibbling to argue that civil power in the other counties has not been exhausted, because it has never been exercised. As Grover Cleveland said: "This is a condition, not a theory," and for all practical purposes the civil power is exhausted.

With fine disregard of facts, the State Journal continues:

"The only night riders we have in this community are the irresponsible and often intoxicated soldiers who gallop through the streets and out the pikes in search of something, they know not what, and we are of the opinion, they do not care. The civil authorities of the county of Franklin are able to manage their own affairs without the intervention of the soldiers."

Probably the "irresponsible and often intoxicated soldiers who gallop through the streets and out the pikes in search of something, they know not what," are Frankfort soldiers, and the State Journal must be acquainted with the habits of the citizens of its own town. We know by weeks of observation that the Hopkinsville, Middlesboro, Owensboro, Whitesburg, Louisville and Earlinton soldiers, have conducted themselves in western Kentucky in a manner to win the admiration of the citizens, and not even the Murray Ledger could find cause for criticism of the soldiers. If the Kentucky State Journal man knows aught of soldiers being intoxicated, no doubt the military authorities would be obliged to him for the information; for they are keenly exacting in the matter of decorum on this delicate mission.

As to whether there are night

riders and nightly outrages on the border line of Franklin and Shelby counties, we leave that to the smarting conscience of the editor of the Kentucky State Journal. We observe that he publishes on his front page, news that is either known by him to be false, or is a refutation of what he writes in his editorial column.

He condemns lawlessness, he says, but he believes "that there should be no discrimination. All offenders should be punished alike, whether it be a plant-bed scraper, a trust that controls prices for its own aggrandizement and against the producer; a negro who robs a hen roost, or an assassin who kills a governor."

What, pray you, have "other forms of lawlessness" to do with night riding? Are they a palliation or excuse for the outrages that nightly disgrace this commonwealth and bring distress and sorrow to her citizens; that are ruining our agriculture districts and depopulating our farming communities? If these night riders were common highwaymen or burglars, would the Kentucky State Journal and the Murray Ledger say the state ought to put down other forms of lawlessness first; that "the trust" should be put down?

That's an echo of the incendiary speeches of the "night rider alibi lawyers." It sounds like those resolutions which begin with "we condemn lawlessness" and end up with a dramatic recitation of the grievous condition of the planters under the domination of the trust, and a demand that the state do something to put down the trust.

Why do not those night rider county and commonwealth's attorneys, who refuse to prosecute their comrades, institute proceedings against the trust? It is their duty, not the governor's.

They are not fighting the trust. The night riders do not damage the trust's property. They destroy only the property of unoffending farmers, and the references to "other offenses" in the Kentucky State Journal and the Murray Ledger are designed to encourage night riders by making them feel that they are being discriminated against, while engaged on a holy mission.

The Kentucky State Journal teems with abuse of Federal Judge Evans, who sent 200 miles to secure an unprejudiced jury to try the Hollowell cases, and it abuses Governor Willson for pardoning Mrs. Hollowell. Doesn't the editor of the Kentucky State Journal know that the defendants in the Hollowell suits compromised the cases against them by paying a price? If the Caldwell county defendants are willing to rest under the stigma of the federal jury's verdict, the Kentucky State Journal ought to let it rest.

We do not believe that Editor Walton approves of lawlessness; but he was part of an administration that didn't object to it, and he hates the Republican administration like "Plzen." Politics is his religion, and if lawlessness continues unabated, and he can stir up hatred against the militia sufficiently to bring about a clash and so embarrass the administration, that would be a situation that would bring pious joy to the devoted heart of the high priest of Beckhamism. With the Courier-Journal fighting night riding, we can find the charity to grab the sympathies of Editor Walton, but the lustiness of the cause we are advocating prevents our sparing his diatribes against the vested authority of the state.

REMOVE THE TANKS.
 Precautions taken by the Standard Oil company to insure its storage tanks against danger of fire and explosion, out there by the railroad tracks, but emphasize the necessity for precaution, and what greater precaution could be taken than removing those dangerous tanks outside the city limits? No precaution can prevent lightning from striking the tanks; any careless act of an employee may render futile these elaborate precautions of the company. Property owners and residents around the present location of the tanks have rights, which must be considered ahead of the convenience of the Standard Oil company. One of their rights is immunity from excessive dangers imposed by the presence in their vicinity of large quantities of inflammable and combustible material, subject to momentary destruction by sparks from passing railroad engines.

"GET THE BOOK" IN COURT OF MAGISTRATE EMERY.

Evidence was heard yesterday afternoon by Magistrate Charles W. Emery over the ownership of a pair of ice hooks between George Robertson and Wes Flowers, rival ice dealers. Magistrate Emery will reserve his decision until Monday morning. Flowers asserts that two pairs of ice hooks were taken from his ice wagon by Robertson and a writ of delivery was taken out in the court. Robertson executed bond and retained the hooks. The hooks are valued at 25 cents each and have led to considerable trouble. In the trial the hooks were before the court, but Flowers asserted that they were not the ice grabbers the warrant was taken out for. One pair of hooks had "G. W. R." and the other "F. Rieke" on them. The case has attracted considerable attention and the decision of Magistrate Emery is looked for with interest, as it may be appealed by either side.

THE VANISHING FLEETS

By ROY NORTON

ILLUSTRATED BY A. WEIL

(Continued from last issue.)

For a few minutes he ran in a panic, taking no heed of direction, and bent only on gaining time to think, and putting space between him and his pursuers. A tangle of undergrowth compelled him to stop and seek for avenues through the wilderness. He ran down what seemed an old deserted road; but on neither side could he find a place favoring a change of course. He was doubling back along the side of a triangle, and was so close at one time to the bounds that he momentarily expected them to break cover, drop the scent afforded by the handkerchief and cut across to where he was. He could even distinguish the shouts of the men behind, continually encouraging the animals in the chase, and heard one exclaim: "It's the Jap, all right, or he wouldn't have lit out so quick!"

His teeth came together with a click at this confirmation of his suspicions, and now he realized that wherever an officer of the law was posted warning had been given of his coming. He swore that he would yet escape, and urged himself in the name of his country to rush ahead; and thus for many minutes the fate of Japan rested on a race between bloodhounds and a fugitive who tore headlong through the undergrowth, careless of thorns which reached out and scarred his face, ripped the false queue from his shirt cropped bristling hair and rent his clothing.

Once, blinded by perspiration, he plunged into what appeared to be a pit way; but fell through a tangle at the end, to find himself beside a wayside spring. He gulped three or four swallows of water and retraced his steps, cursing fate for the loss of time, and ran with renewed energy down the roadway. A flash of reflected light smote him in the eyes, and he saw that he had reached the water's edge. At his feet stretched out tossing waves, and like a stag at bay he was driven to the open.

The end seemed very near now; for back of him the harsh clamorings broke out into a triumphant wailing note telling those behind that the quarry had been sighted. The bounds were coring on the run, and round the bend of the road emerged an excited but grimly determined lot of men of that stamp which makes a frontier, set jawed, lean visaged, and running with the long, leaping stride of those accustomed to sustained violent exertion.

Seigo, distracted and desperate, took a few steps in either direction, uncertain which way to turn, and then discovered but a short distance below a boat in which lay a pair of oars. It was the only way to gain a moment's respite from those great brutes which, with bellies low to the ground, with jolling jaws and flailing eyes, whose red he could discern, were closing in on him. He made three or four frantic leaps and threw himself into the craft, shoving it off almost as the animals were upon him, and then with maniacal energy threw the oars into the locks and bent him self double pulling against them. Even then at the last he experienced one brief moment of exultation as he heard the swish of parted waters against the bow and saw the space widening between him and the beach on which stood his baffled pursuers. He saw the men halt on the shingle and heard them shouting to him; but never ceased pulling, hoping and half believing that he could put himself beyond range. It was Seigo against them all now, and he began to glow with triumph, not knowing the character of those men of the west who still gave him a chance for his life. Drunk with excitement, he shouted back a taunt in his own tongue.

Two of the men on the beach knelt down and aimed their rifles calmly and steadily at that moving target which was drawing away. They were as cool as they would have been if covering a grazing deer in the hills. The rising sun made of the Japanese

a fair mark, lighting up even at that distance his sneering face. There were two quick puffs of smoke, which rose simultaneously into the air and floated away in little wisps, two short sharp reports, and Seigo sprang to his feet, dropped his hold on the oars, and clutched his breast in agony, whirled round in his wildly bobbing craft, and then slowly pitched forward and over into the waters of the sound, his days of effort terminated in defeat and his mission at an end.

CHAPTER VII.

The Missing Fleet.

Japan, grown arrogant through easy success and confident of the supremacy of her navy, east aside the cloak of secrecy and boldly announced her intention to attack the seaport cities of the western coast of America. No word had come from Seigo to bid her pause. The most formidable armada that ever sailed the seas, attended by lighters that were to provide coal, and accompanied by transports conveying an army of men, steamed away to the land of easy conquest. In the hope of striking terror into the hearts of those they would subdue, the Japanese announced their purpose, and gave a somewhat exaggerated account of the forces being sent. The newspapers of the world teemed with stories of the sailing of this monster fleet, told how all Japan had shouted "Banzai!" described the flower garlanded maids who sang gay songs, and pictured the remarkable modesty and valor of the admirals in command.

In some quarters of the globe great sympathy was expressed for the United States, which apparently had no chance whatever in such an unequal contest, and was foredoomed to calamity and dissolution. The wiseacres of European powers rose as a unit and told how for more than 50 years it had been repeatedly pointed out that the over-sea colossus was facing destruction through neglect of her navy. Monarchical adherents saw deeper into the cause of a nation's obliteration, asserting that the proof had again been given to the world that a republican form of government was one which, by its very lack of cohesion and unwieldiness, could not exist.

DUN'S REVIEW.

New York, May 30.—Industrial conditions continue to improve and arrangements have been made for the resumption of many plants next week while the retail trade is increased by seasonable weather. There is still a degree of conservatism regarding plans for forward deliveries, but sentiment is definitely better and progress is in the right direction. Mercantile collections are more prompt and money rates are slow despite exports of \$10,000,000 in gold and treasury withdrawals of \$15,000,000.

Shoe manufacturers are receiving more orders, although business still compares unfavorably with former seasons. The best contracts are for medium and low priced calf goods, and orders from the west show a good gain over last week's figures. Prices are well maintained and warm weather has stimulated a demand from nearby retailers for summer specialties. Improvement is slow but definite in the demand for leather, and tanners anticipate further progress as the season for fall shoes advances.

Bank Clearings.

New York, May 30.—Total bank clearing compiled by Bradstreets for the principal cities of the United States for the past week, \$2,401,319,000 against \$2,158,142,000 in the corresponding week last year.

The principal portion of her estate is given to Mr. George Bains, her husband, who is made executor of the will. Other bequests are made to her step-children, Rosa and William Bains, and to William, Ella, Amanda and James E. Wilhelm, Jr., of Paducah, and Mary Elizabeth Beadles, of Fulton, a niece and namesake. In Bankruptcy.

Next Tuesday E. W. Bagby, referee in bankruptcy, will try exceptions that have been filed by John Rehkopf in the bankrupt estate of his father, E. Rehkopf. It was intended to hear the exceptions today. At the same time the motion of A. E. Boyd that the First National bank be required to hand over some notes to Trustee Boyd that John Rehkopf hypothecated on borrowed money.

Referee in Bankruptcy E. W. Bagby today ordered a division of 9 23-100 per cent distributed in the J. D. Foley case. This dividend applies to claims aggregating \$2,948. O. C. Lasher, the trustee, is now a resident of Chandler, Okla., and Attorney W. V. Objections have been filed by the First National bank of Marion, Ill., to the sale of the accounts and notes of the Thompson-Wilson company, bankrupts. Judge Bagby will consider the objections Wednesday afternoon at 3 o'clock.

RAILROAD NOTES

The Illinois Central accommodation train, No. 1337, in charge of Engineer Mulvin and Conductor Hicks was delayed for two hours last night at Barlow. The front trucks of the coal tender left the rails and it was hard work in getting them back. The passenger train that left Paducah at 6:15 o'clock last night was held at La Center, until the track was cleared.

Only enough men are working at the Illinois Central shops today to keep up the running repairs and to repair loaded cars, so that the freight may be delivered. Decoration day will be celebrated in various ways. Thirty-seven members of the Illinois Central Fishing club left this morning at 9 o'clock for the Barlow lakes to seine. Three long seines were taken and it is reported that there is an abundance of the fish. The party will return tonight.

FLAMES DESTROY FINE RESIDENCE ON BENTON ROAD

Flames that were discovered in the home of Mr. Thomas Reed, six miles from the city on the Benton road, completely gutted a new two-story brick residence today at noon. The residence cost about \$3,000 and the blinding touches had just been completed. Mr. Reed had no insurance in the residence, but neighbors succeeded in saving most of the household goods. The fire was discovered at 12 o'clock and in a half hour only the brick walls of the handsome residence were standing.

In the rear adjoining the brick residence was the old Reed home, and while dinner was being prepared the fire got a start in the flue. It had gained a good headway before it was discovered. The alarm was given and neighbors, who were returning to dinner, rushed over and formed a bucket brigade. It was soon seen that the heroic efforts were futile and he men devoted their time to saving the household goods.

The house was covered with a slate roof, and had many modern improvements. The brick walls are in bad shape and cannot be used in rebuilding. Mr. Reed was in the city at the time of the burning of his home.

PARTICULARS OF AIRSHIPS TOLD

Dayton, O., May 30.—The flying machine which has been brought to a state of partial practicability, as demonstrated in the Maneto (N. C.) flights by the Wright brothers, Orville and Wilbur, of this city, is an aeroplane—a "glider" same experts have designated it. The machine is built of spruce wood, second growth ash, steel wire, heavy muslin and a small proportion of metal.

In appearance it resembles nothing so much as a great box kite, consisting of two parallel planes, 40 feet long and 6 1/2 feet wide, made of muslin on spruce frames. Between them, and just under the upper plane is a motor, which drives the propeller, which is in the rear, 6 feet behind the discs of the planes.

Machine Weighs 1100 Pounds.

The motor by which the propeller is driven weighs 160 pounds, and the weight of the entire machine is 1100 pounds, which includes the weight of its two riders or drivers. It has no gas bag, its buoyancy depending alone on its action against the air.

Below the frame-work and toward the front is a "skid," similar to runners on sleds. This is used for landing and differs in this particular from the French machines, which are equipped with wheels.

In the center of the machine, at the bottom is a small double-wheel truck, which, running on a monorail, is used while the machine is acquiring speed enough to leave the ground. The monorail is easily movable in any direction.

Principle of the Airship.

The machine's successful flights, which, however, a wreck was recorded, seem marvelous until it is explained that the airship is built for operation on the centuries-old principle of the flat disc, which, thrown into the air, sails by the motion of its original impulse for scores of yards, and then, in falling, skims the ground for an indefinite distance, finally settling to earth without perceptible collision.

For seven years the brothers had hided from the top of Kill Devil Hill at Maneto, merely to solve the problem of steering their machine. Then they designed the gasoline motor and propeller to obtain a continuous energy in the place of the first impulse which they had gained from the start from the hill's top.

The Wrights announce that with a machine of proper size a speed of 100 miles an hour may be attained.

Mrs. Bettie Harrison, of Union City, Tenn., arrived yesterday and is the beside of her daughter, Mrs. Jack Carter, who has been ill for several days.

Need Medicine?

For Women's Ills

When you need a medicine for women's ills, we urge you earnestly to take Cardui.

Cardui is a woman's medicine. It is not for men, nor even for such women as do not suffer from any of the ills peculiar to women.

It is not a cure-all, but a genuine medicine, of real scientific value in certain forms of disease—the diseases to which only women, are liable.

Hence, you should take Cardui, if sick, when you feel that you are suffering in this way, and you may take it in perfect safety and in confidence.

Mrs. Bettie Arp, of Menlo, Ga., writes: "I have been using Cardui with the greatest benefit. I was troubled with female complaint for twelve (12) months. The doctors treated me for four months. They did me but little good, so I took Cardui and I believe it saved my life."

EXAMINATION

BEGIN IN PUBLIC SCHOOLS MONDAY MORNING.

Prof. Carnagey Well Pleased and Thinks Majority Will Be Exempt.

Examinations will begin at the public schools Monday morning, but less than half of the pupils will be required to take the tests. Since the new rule has gone into effect exempting students who make a high percent, a greater interest has been taken in preparing daily lessons, and the cramming at the end of the semester has been almost eliminated.

Superintendent Carnagey was well pleased this morning, and although he has received no reports of the number exempt, he says it will be a majority. Next year better success is expected, as the exemption of students from the examinations for higher grades did not become effective until last semester.

SENATORS STARE; SHE FLEES.

Couldn't Make Eyes Behave When Costume Invaded Gallery.

Washington, May 30.—A woman in a provocatively decolette costume, even for a hot day, appeared in one of the senate galleries this afternoon and caused something of a sensation while Senator Newlands, of Nevada, was discussing the Aldrich-Vreeland currency bill.

Suddenly one of the few newspaper correspondents who had remained in the gallery rushed out and announced: Lady in the gallery wearing a bathing suit." Immediately there was a stampede for the press gallery. The rush attracted attention from all the spectators' galleries as well as the senate floor. She grinned, blushed, turned her head haughtily away and retired as gracefully as possible.

In boughs aloft;
Before we part
Love's blissful rite
"Good night! good night!"

IN MEMORY OF FIRST GOVERNOR

People of New York Joined in Tribute to Clinton.

Once Vice President of United States and Revolutionary Soldier—Remains Removed.

TO HIS OLD NEW YORK HOME.

New York, May 30.—There was a brief pause in the strenuous routine of business and pleasure in the metropolis, while city officials and the populace generally joined in a tribute of respect to the memory of George Clinton, revolutionary soldier, vice president of the United States and first governor of the state of New York.

The remains of Governor Clinton were recently disinterred in Washington, where they rested for nearly a century, and will be reburied today at Kingston, which was the old home of Governor Clinton and the place where he took the oath of office as the first chief executive of the Empire state.

During the greater part of the day the remains lay in state in the historic governor's room in the city hall, where they were viewed by thousands of people. The front of the city hall was draped in black and the flags were hung at half-mast.

The revenue cutter Mohawk landed the body at the battery shortly after 9 o'clock this morning. As the cutter crossed the river from Jersey City minute guns were fired by the naval militia gunboat Wasp, and the guns of Governor's Island took up the salute as the body was landed.

The parade from the battery to the city hall was headed by a platoon of mounted police, behind whom marched the United States military band. Major General Grant, accompanied by his aids, led the regular troops. These consisted of a battalion of artillery from Forts Wadsworth and Tompkins. The marine band headed the naval section of the parade, and was followed by a battalion of marines from the Brooklyn navy yard. Then came the naval band, leading the sailors from the battleship New Hampshire.

The coffin containing the body was drawn on a gun carriage and was draped with a United States flag. The sword carried by Clinton in the Revolutionary army was placed on the bier. Behind the coffin marched Mayor McClellan and the city officials, the board of aldermen, the citizens' committee of seventy-five, and the descendants of the governor. Then came the band of the famous Old Guard, the Old Guard itself and the Veteran Corps of Artillery. The rear of the procession was brought up by the Sons of the Revolution, the Society of the Cincinnati and other patriotic organizations.

The route of the procession was from the battery to Bridge street, passing Fraunce's Tavern, where Clinton engaged George Washington, up Broad street to Wall. Thence the parade swung into Broadway, and passed St. Paul's church, where the governor used to worship, to the city hall.

During the hours that the remains lay in state at the city hall they were surrounded by a guard of honor. Late this afternoon the journey was resumed to Kingston. The trip was made up the Hudson on the gunboat Wasp, which was escorted by a flotilla and torpedo boats.

STOCK MARKET IS MADE TO SUFFER

Over Exertion to Take Profits Causes Relapse.

Bank Reserves Extraordinarily Heavy and Continued Ease Expected in Market.

HENRY CLEWS' WEEKLY LETTER

(Special.)

New York, May 30.—The stock market has been suffering from over exertion. Strenuous efforts were made to lift prices to the highest level possible by driving out the short interest, and the result was a pleasure to take profits that brought about a more severe reaction than was expected. The late rise was beyond all reason; for prices had been carried not only above the pre-panic level but also above those prevailing last summer; and in face of a very serious decline in railroad traffic. A year ago business was extremely active and the panic generally unexpected. Now, we have fallen to a considerably lower level for all values, business has slumped greatly in volume, and the railroads are threatened with a reduction of dividends.

From almost every point of view the late advance was excessive; and, as was recently stated in these columns, a sharp reaction was sure to follow any unfavorable news of sufficient importance to start a fresh selling movement. This came first in the form of unfavorable crop news, then in the anti-merger suit of the government against the New York, New Haven & Hartford railroad, and finally in the uncertainty of congressional action upon the currency system. All of these developments were distinctly unfavorable. Probably no great harm has befallen any of the growing crops, but recovery from present business depression is so closely dependent upon a good harvest that the security markets are, and will be during the coming summer, particularly sensitive to crop news. A poor harvest would be nothing less than disastrous to the whole country; in fact we need not merely one good harvest, but additional bountiful ones to infuse fresh life into business, and to give us a moderate surplus of agricultural products that would aid in bringing down the present high cost of food. As has been said, however, prosperity lies in moderate abundance, and not in scarcity. For some years past there has been a relative shortage in the supply of nearly all agricultural products; a condition largely responsible for present high cost of living among the masses. A big harvest therefore would be a blessing; for food products would decline, the consumer would have more to spend in every direction, and the farmers' larger output would more than compensate for lower prices. The announcement of the \$200,000,000 Chicago, Burlington & Quincy loan caused the "Street" to pause somewhat; for awhile only \$16,000,000 were issued for immediate purposes there was much conjecture as to what was the ultimate purpose in authorizing so huge a loan; the biggest railroad bond issue on record. A very large portion of this issue was intended for refunding purposes. Nevertheless, there is a big remainder of considerable over \$100,000,000, the use of which is open to surmise. This places the road in a position to command a large amount of capital for development, and to place the Hill lines in a position for meeting the competition of the Harri-man Trans-Atlantic systems operating in the south. Of course, this new capital is required for development of roads running to the North Pacific coast, and shows an encouraging degree of confidence on the part of our great railroad managers in the future of that rich and undeveloped section.

Another element of disturbance was the uncertainty as to what congress would do on the currency question until the Aldrich-Vreeland compromise bill was passed on Wednesday. Congress seems likely to please nobody but itself. Those who wish currency reform on sound, scientific and well established lines, will, of course, be much discouraged; and those who wished simply an emergency bill to protect the money market from manipulation until some legislation could be obtained were temporarily disconcerted by a week of uncertainty and vacillation. All of these events tended to discourage speculation on the long side and to stimulate the taking of profits. It is worthy of note, however, that as the market declined activity diminished.

The Money Market. The outlook in the money market is for continued ease. Bank reserves are extraordinarily heavy, gold exports pass unnoticed, and all signs point to a plethora of idle funds for some months to come. Even the prospective crop demands, and large government withdrawals, which will soon be forthcoming, give no concern. Of course this unusual ease in money has an inflationary effect upon stock exchange values. Nevertheless, bankers discriminate closely in making loans, and new enterprises have to be exceptionally sound and attractive to command financial support in this community.

General business continues very quiet. The turn for the better, noticed two weeks ago, has become slightly more positive; and the tendency is certainly toward improvement; the iron trade and the cotton goods industry leading in this respect. There is also much more hopeful feeling prevailing elsewhere than at any time since the panic. It would be unreasonable, however, to expect too much; the real recuperation will no doubt be a matter of slow growth. Something will depend upon the political outlook which steadily improves but more upon the harvest, the outlook for which must involve more or less uncertainty. Both cotton and wheat are likely to show some depreciation in condition this month, owing to the excessive rains and low temperature. But the majority of the crops have had a good start this year and the outlook is encouraging, for experience shows that we always have one or two, if not three months, of deterioration after a favorable spring. The railroad situation seems to have reached its worst. The number of idle cars has begun to diminish, and traffic in June ought to show signs of recuperation. Earnings for April and May were very discouraging showing a loss of 15 to 20 per cent. In the west a hopeful feeling is prevalent, depression continuing keenest in the eastern industrial and financial centers.

The market would undoubtedly be improved by an additional decline. Fresh buying would follow, and activity would be restored. The general financial situation is sound, and after the liquidation of the past six months no serious reaction should be anticipated. A good trading market is therefore possible.

FINAL TERMS

PROPOSED TO EAST TENNESSEE COMPANY BY CITY.

Pays Cost and Attorney Fees, Buys Franchise and Furnish Fifteen Phones.

Peace may reign between the East Tennessee Telephone company and the city if the general council will accept the motion of the joint railroad, telegraph and telephone committee. The motion was: "I move that we recommend to the general council that an ordinance be brought in exposing for sale a franchise for the East Tennessee Telephone company, stipulating that it shall not pay less than \$500 for the franchise, reimburse the city for its court costs and attorney's fees in its litigation with the company and furnish the city free of charge fifteen telephones." Alderman P. H. Stewart offered the motion and it passed, with Councilman Wilson voting "nay."

Hon. Charles K. Wheeler, attorney for the company, was present and said he would do all in his power to get the company to accept the compromise. The court costs and the fees of the attorneys will amount to approximately \$700. Mr. Wheeler agreed that the motion should go before the general council, and when the ordinance is ordered it will be a binding agreement between the city and company.

Aldermen Sherrill, Wells and Stewart and Councilmen Wilson and Young were present. The vote stood 4 to 1 for passing the motion. Present at the meeting were: Charles K. Wheeler, A. L. Joyner, manager of the Paducah exchange; Mayor James P. Smith, James Campbell, Jr., city solicitor, and H. J. Jeffery, manager of the Home Telephone company.

Today's big bonus offer is the one
thought of the hundred and twenty-
one candidates who are now making
strenuous efforts for the \$2,000 in
prizes The Sun has offered for popu-
lar people.

The bonus has raised a tremendous
stir because of the fact that the can-
didates realize how important it is
to secure some of these free votes
that may be the measure of success
or failure at the fateful finish, July
Fourth.

As announced yesterday ten thou-
sand votes will be given in each dis-
trict to the candidate who turns in
the largest amount of cash today be-
fore 9:00 P. M. Five thousand
will be given in each district to the
candidate who turns in the largest
number of separate subscribers.
One thousand bonus will be given to
the candidate in each district who
polls the largest coupon vote.

Remember that the office is open
for the receipt of cash and votes until
9:00 p. m. It is not necessary to
submit the votes secured by the sub-
scriptions turned in today—in fact,
it is impossible to do so on account
of the voting limit—but the votes will
be reserved by the candidates and
used later when the limit allows the
casting of a larger number.

Candidates in district 3 will have
till Monday evening to turn in their
subscriptions.

Watch Them Hurry.
If you see more than a hundred
men and women busily turning a few
million corners today you may know
that they are candidates and trying
to win a bonus. Everybody is try-
ing to do a week's work in a single
day and most of them are succeeding.
It's one of the rules of the game that
you have to play it hard.

To New Entries.
If you have been considering the
advisability of entering the contest
and have finally decided that the
\$2,000 in prizes looks good to you,
now is the time to get very actively
engaged in the work of getting sub-
scription votes. If some one has a
couple of days start of you the
chances are that they have picked
over their best prospects and will not
stand as good a show of winning
Saturday as you will, for you have
the cream of your business yet to
secure.

Voting Limit.
Until May 29 no candidate will be
allowed to cast more than 2,000 cer-
tified votes in any one day.
The Paducah Sun's Great Popu-
larity Contest began with the official
announcement on May 23 and will
close on the great national holiday,
July 4. That makes exactly six weeks
There will be no extension of
the time of the contest. When it's
over it's over, and the happy, lucky
ones will be lugging home deeds for
real estate, orders for fine furniture,
rare jewels and a bunch of other
things.

Who Are Eligible?
Any white person, man or woman,
of good character, residing in the ter-
ritory covered by The Sun may be-
come a candidate for the honors and
the prizes in The Paducah Sun's
Greatest Popularity Contest.
Duration—Awards.
The contest starts with today's an-
nouncement and will continue till

July 4, at 9 p. m., at which time a
committee of well-known and trust-
worthy citizens will be chosen to de-
termine who are entitled to the
prizes.

More Than \$2,000 in Prizes.
Following is a description of the
magnificent list of prizes offered for
the winners in this contest together
with the arrangement governing
their distribution.

The candidate securing the highest
number of votes, regardless of dis-
trict, will be given The First Grand
Prize, a \$700 double building lot in
Gregory Heights, Paducah's prettiest
suburb.

The candidate securing the second
highest number of votes, regardless
of district, will be given The Second
Grand Prize, a \$400.00 two-carat,
blue-white diamond, on display at
Jo Wolff's jewelry store, 327 Broad-
way.

After the judges of the finish of
the contest have awarded the Grand
Prizes, the names of the two winners
will be stricken from the list of con-
testants and the nine district prizes
will be awarded as follows:

The three persons who lead their
respective districts will be awarded

second highest number of votes in
their respective districts will be

hope of recovery. I wrote Mrs. Pinkham

STRONG CASE

WILL BE MADE AGAINST NIGHT
RIDERS OF MARSHALL.

Commonwealth's Attorney Lovett Is
Working Hard on the
Cases.

Commonwealth's Attorney John G.
Lovett, of Benton, is in the city, and
expresses hope that strong cases will
be made against the alleged night
riders, who were indicted at a special
session of the grand jury several
weeks ago. Mr. Lovett has been dig-
ging up evidence quietly, and the raid-
ing it is believed will be convicted.

Mr. Lovett has been vigorous in
his investigations, and witnesses be-
fore the grand jury were questioned
vigorously. On June 5 Judge Reed will go
to Benton and will open the term of
court, when the trials of the men in-
dicted will be called. The men have
secured attorneys and will make a
fight for their freedom.

filed in the District Court of the United
States for the Western District of

day of May, 1908, by George Du-

States, against ten barrels, seventy-
five half barrels and fifty kegs of cider
alleging in substance that said articles
were forfeited to the United States, as
being misbranded within the meaning
of the Food and Drugs act of congress
of the United States approved June
30th, 1906, and praying process
against the same, and that same may
be condemned as forfeited as afore-
said, same having been seized by the

Now, therefore, in pursuance to
the motion under seal of said court to

ner interested therein, that they may

June 1, 1902 SIX YEARS IN PADUCAH June 1, 1908

On June 1st, six years ago, I began business in Paducah. Six years of hard
work; six years of honest effort to give my customers honest values; six years I
have held to the belief that my methods would bring good results. I believe that
a man or a firm gets trade if they know how to go after it, and I would rather
have your patronage today than your promise tomorrow. I have not yet lost faith
in my business ideas. I firmly believe that my business will grow and increase
just so long as honest goods, low prices and prompt and courteous treatment make
an appeal to the buying public.

We celebrate June 1st with an anniversary sale. Come and see us and take
advantage of some of our Special Offerings. We have music Monday, afternoon
and evening. Our electric fans and air pipes make our store the coolest in Padu-
cah. Our Soda Fountain is dispensing the most refreshing drinks.

Watch the daily papers for notices of our Special Bargains. Understand, we
surely want your trade, or part of it at least, during the next six years. Will you
not give us a trial and see if we deserve it?

"No Alternatives."

"We get some sad cases," said the
attendant at the lunatic asylum to the
visitor, and opened the door of the
first cell.

Inside was a man sitting on a stool
and gazing vacantly at the wall.
"Sad story," said the attendant.

"He was in love with a girl, but she
married another man, and he lost his
reason from grief."

They stole on softly, closing the
door behind them, and proceeded to
the next inmate. The cell was thickly
padded, and the man within was stark
staring mad.

"Who is this?" inquired the visitor.

"This," repeated the attendant, "is
the other man."—Tit-Bits.
